## It's a Beautiful Day

It's a beautiful day when your love is in the air  
It's a beautiful day when you really don't care  
If tomorrow brings the end of love for you  
You don't mind, because right now it's just you two,  
just you two, it's a beautiful day

It's a beautiful day when you feel your love inside  
It's a beautiful day when your love she's by your side  
Who knows what tomorrow will bring?  
Thank God yes that you and me we can still dream  
We can dream, it's a beautiful day

It's a difficult day when your love she's gone away  
It's a difficult day when your hear it seems to say  
Wait until tomorrow my friend  
You will see that love will come, come again  
Yes, my friend, it's a beautiful day

## Cool Nuke Guy

She's always talking, but she's made it with that cool nuke guy.  
She's never stoppin, cause she's made it with that cool nuke guy

She's never taking a time out  
It's such a waste, she can't get it out now.  
She's always talking, but she's made it with the cool nuke guy

She ain't never gonna get out  
Her hair is gone because of the fallout.  
She's never stoppin, cause she's made it with that cool nuke guy

She's never taking a time out  
It's such a waste, she can't get it out now.  
She's always talking, but she's made it with that cool nuke guy

Made it with that cool nuke guy  
Made it with that cool nuke guy  
Made it with that cool nuke guy  
*Hey, hey say there baby*  
Made it with that cool nuke guy  
*Hey why don't you let me grab you by your nuclear waist?*  
Made it with that cool nuke guy  
*Say what's my name? You can just call me Atom*  
Made it with that cool nuke guy  
*Ahh... you got some kind of radiate, Yeah!*  
Made it with that cool nuke guy  
*You make me burn to the core baby!*  
Made it with that cool nuke guy  
*Hey maybe we can get some kind of fusion together.*  
Made it with that cool nuke guy  
*Say what? Shit get out of Momma, say what.*  
Made it with that cool nuke guy  
*Some kind of crazy chick... (give talk fades out)*

## A Moment's Time

Told you that I would wait — and I would wait every moment for that feeling to come, oh my love

Told you that I would make —and I would make every feeling count as one, oh my love

Zee my love is going round with out you  
Zee my love is going round with out you now.

Told you that I would take — and I would take every moment and send you some of my dreams

Told you that I would wait —and I would wait every moment for that feeling to come, oh my love

Zee my love is going round with out you  
Zee my love is going round with out you now  
Do do do doooo wo oh yeah

Yeah, a dog style lover  
Come here you dog style lovers  
You don't need no covers

Out in the street, you can't beat your meat  
so hunt down all the butt you can find  
So small and furry, make it shake like fury —  
cause I'm the four legged love in kind

*Intro for Live & Love on Legs bonus song*

We've got legs, but we can't say  
how many legs is right  
Mothers got two, fathers got three  
and brother's four or eight!  
See the thing, it's coming, coming, coming  
See the thing, it's coming, coming, coming  
It's got six big legs!  
It's got six big legs!  
It's got six big — LEGS!

## Fade Away J

You taught me how to hold her hand  
Julia, with you she'll stand  
A time for love and peace for man  
We'll make it work, you said we can —  
Will someone stop that man?!  
We hear you say, fade away  
We hear you say, fade away —  
Fade away

You taught me how to hold her hand  
Julia, with you she'll stand  
A time for love and peace for man  
We'll make it work, you said we can —  
Will some one stop that man?!  
We hear you say, fade away  
We hear you say, fade away  
Fade away —

## Fish Bush

Hey you! Fish bush!  
What's you doing in this place?  
Say you!  
Wipe that smile off your face

I heard you were back in town  
I know it's true cause they're hunting you down  
Dirtiest women I ever did know  
She never took a bath and lord it shows, ohhh

I love you still, but your making me ill, if you wants love me baby open the window sill.  
You never saw a man who could strike this pose, you never knew a man that could dig with his nose.

Hey you! Wipe that smile off your face  
Say You! Whatcha you doin' in this place?

You been good and you been sad  
but smelling you baby is making me mad.  
Wash between your ears and wash between your toes —wash between your knees where the fungus grows

I must be ill, but I love you still, open up the window and prolong the thrill —  
You shouldn't get down if you can't get up  
You shouldn't breath too deep or you might throw up, ohhhh

Hey you! Fish bush!  
What's you doing in this place?  
Say you!  
Wipe that smile off your face  
Hey you! Hey you!

Hey you! Wipe that smile off your face!  
Say you! What you doing in this place?  
I heard you were back in town  
I know it's true cause they're hunting you down  
Dirtiest women I ever did know  
She never took a bath and lord it shows  
You been good and you been sad  
but smelling you baby is making me mad.  
Wash between your ears and wash between your toes —wash between your knees where the fungus grows  
Hey you! Hey you! Say you!

## In Plain Sight

Don't you know that your living in a world that's made just for you?  
Don't you know you gotta fit it like you would a shoe?  
Don't you think to free or be to free in the actions you choose?  
Don't you fight the draft or sit and laugh at the social fools?  
Don't get too shook , there's no written book for life

The time for living, the time for feeling and loving is now  
You got to get your thoughts together and you got to do it right now  
Don't worry about other peoples gripes they're going to tell you anyhow  
Find a place to be and live it as you see and hope this to be

Don't run off scared, somebody cared, for me.  
Don't run off scared, somebody cared, for you.

## It's Today

I don't know how I could ever tell you  
It's hard too say  
I know I never meant to hurt you  
I'm not that way

It's today  
It's today  
It's today now  
It's today now

My words they got you coming down now  
It's hard to say  
And how I wish there was a sound now  
But not this way

It's today  
It's today  
It's today now  
It's today now

A time to see her alone  
Be but our own, our own  
Our lives threw time, oh we've grown  
Be but our own, our own  
She could take me for a trip honey, only  
Her very thoughts, they strike me so heavy, only  
Aahhhh ahhhh

## Take My Hand

Memory is where I want to be  
Going with you going with out me  
And when I sing of joy and fear  
this song show love is growing near

And when I take your hand, I think you  
understand

Walking alone and down the street —  
no difference, there's no peace to meet.  
That's when I sing of joy and fear  
My soul is growing very near

And when I take your hand, I think you  
understand.

Walking with you, talking with you,  
look at all the people —  
People going down  
Walking with you, talking with you,  
look at all the people —  
People going down  
Walking with you, talking with you,  
look at all the people —  
People going down

And when I take your hand I think you'll  
understand.

## A Little

A little —  
If every man could speak the truth  
and every man refused to shoot  
then every man would feel the same  
If every man could see the day  
that every man would change that way  
then every man would be the same

I guess, what I am trying to say, is every man  
must change his way, every day  
A little —

If every revolutionary  
fanatic or missionary  
decided to call it quits  
And every man, in every town  
and every where they wore a frown  
and every thing would be the same

I guess, what I am trying to say, is every one  
must change his way every day

A little —  
I guess, what I am trying to say, is every one  
must change his way every day  
A little  
A little —

A little  
If every man could speak the truth  
and every man refused to shoot  
then every man would feel the same

If every man could see the day  
that every man would change that way  
then every man would be the same

I guess, what I am trying to say, is every one  
must change his way every day  
A little —

If every revolutionary  
fanatic or missionary  
decided to call it quits  
And every man, in every town  
and every where they wore a frown  
and every thing would be the same

I guess, what I am trying to say, is every one  
must change his way every day

A little —  
I guess, what I am trying to say, is every man  
must change his way every day  
A little  
A little —

## Try

Try can make the ocean flow  
Try or you may never know  
Oh why, you made me try?

Try to help you know  
Try not the reason that she'll always go  
Oh why, you made me try?

And when I'm feeling lonely —  
And I'm not the only one.

Try to realize you'll grow  
Try and I'll try some more  
Oh why, you made me try

And when I'm feeling lonely —  
And I'm not the only one.

Try and let your feeling go  
Try or you may never know  
Oh why, you made me try —  
Oh why, you made me try —
